# Alligator

Sleeps with one  
eye open—  
creepy, right?

Can grow up to 15 feet  
long and about 500 lbs.  
That's one big toothy  
smile!

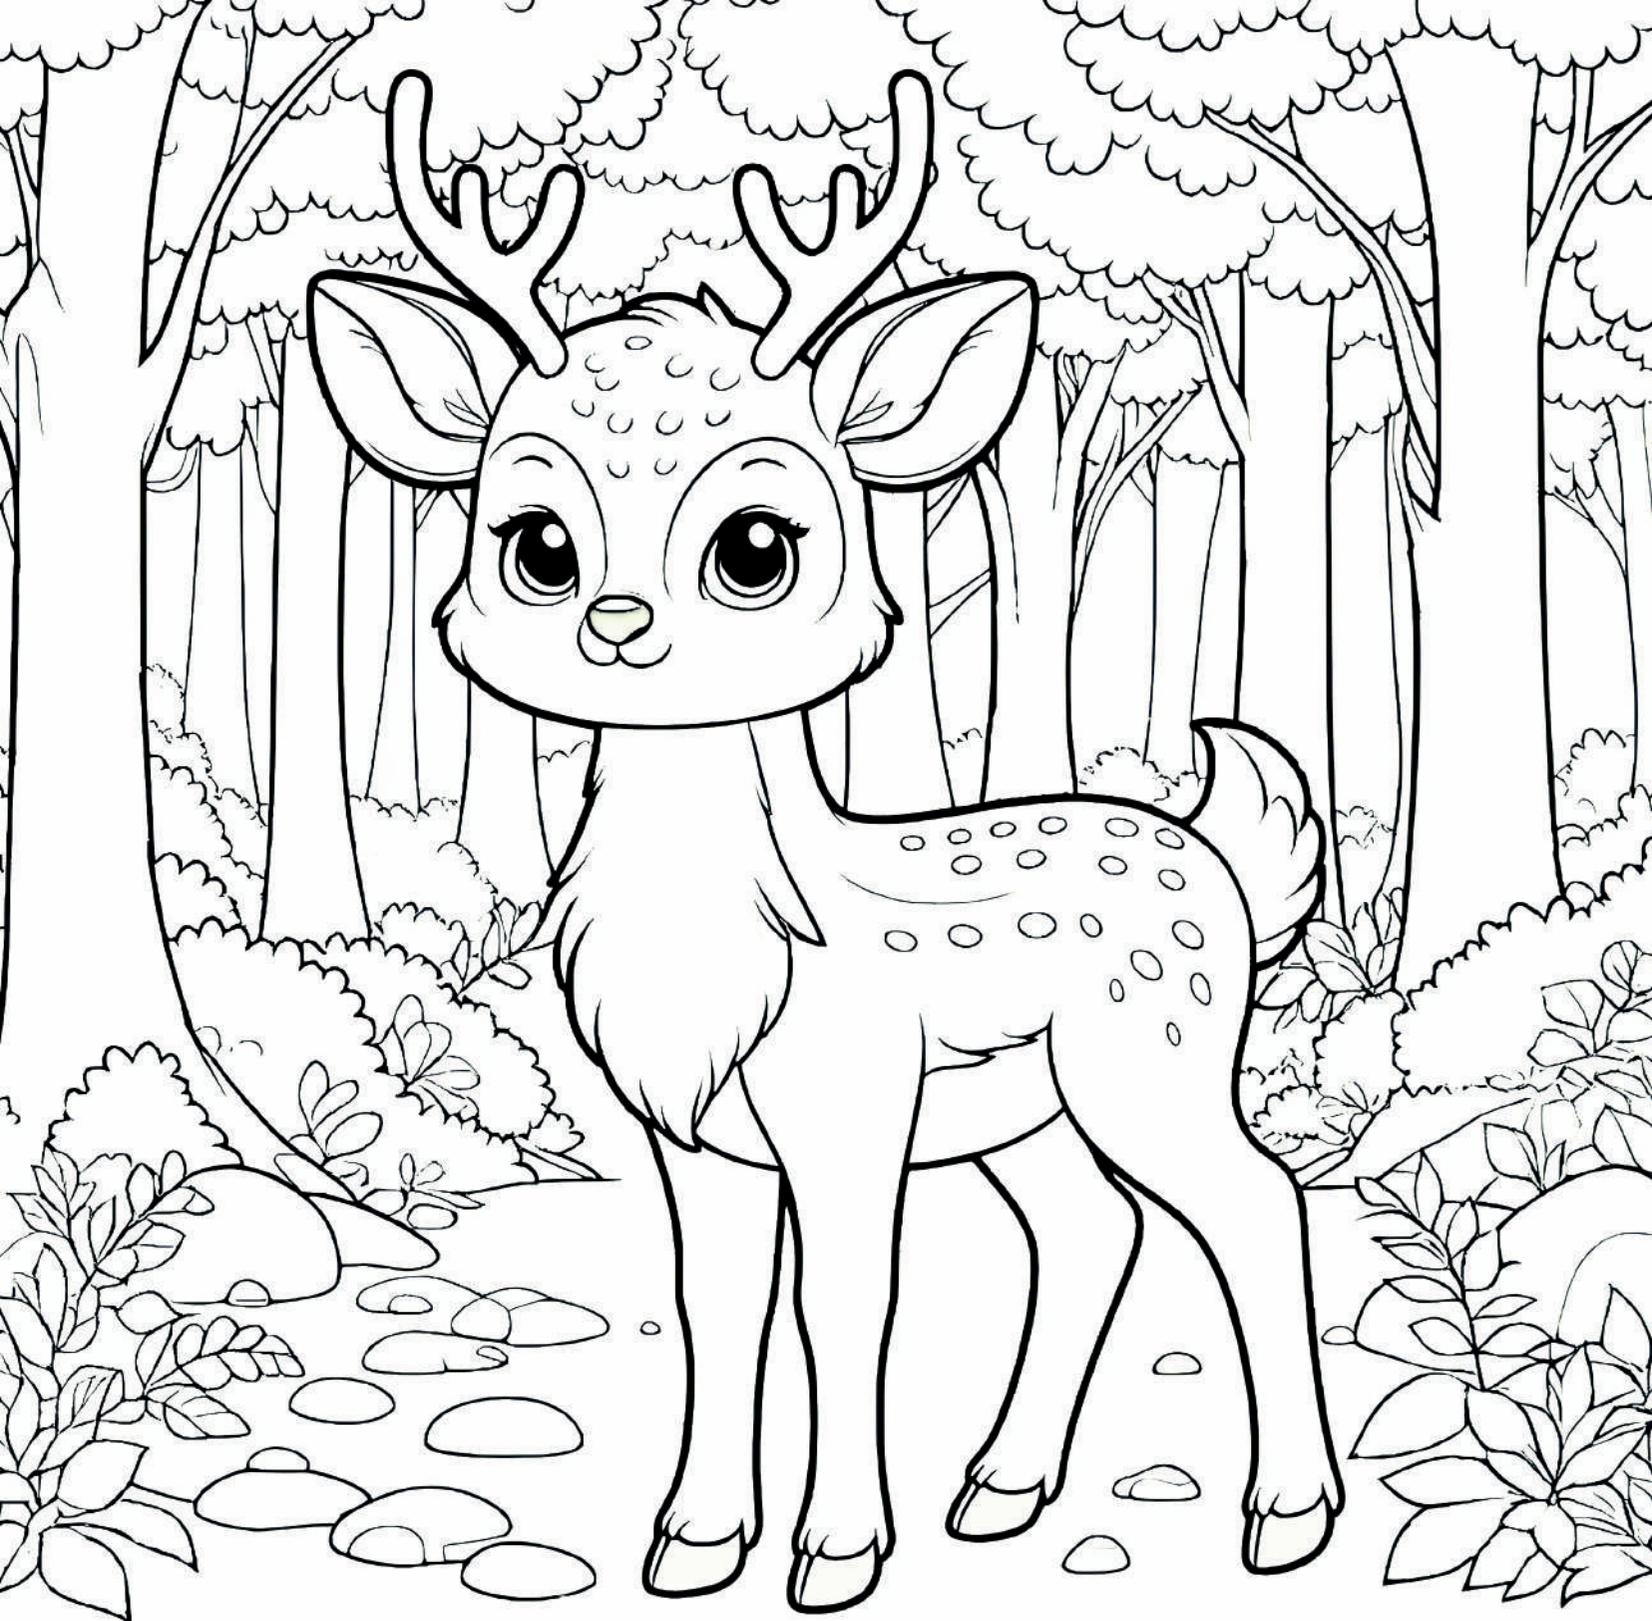

# Deer

Male deer shed and regrow their antlers every year— imagine swapping hats yearly!

Fawns (baby deer) have white spots for camouflage.  
Cute and sneaky!

With ❤️ by Angel Ika - @pagesbyangelika

# Elephant

The world's biggest land animal—talk about jumbo!

Uses its trunk to spray water like a built-in shower!

With ❤️ by Angel Ika –@pagesbyangelika
